

I want the No-Call list to remain the same. Telemarketers are a nuisance to any household. I went to caller ID and have to pay the extra monthly fee strictly to stop having to talk with these pests. They disturb a family during meals, late at night and on weekends. If I want to buy something, I will do the calling. I do not want these irritating calls. By the way, put me on your NO CALL List> Kate I do not want my personal information public.
